

## VENUE RESTRICTIONS

---

-No smoking or use of sparklers on the property. If smoking is done please ask guests to make sure it is done inside their vehicle. No cigarette or cigar butts thrown on the property. Please ensure your guests are aware of this restriction. Trees are not replaceable. Due to the fire hazard, we appreciate your support in understanding why this is so important to us.

-Examples of exit plan ideas include...Biodegradable things such bubbles, dried leaves, lavender, rose petals, or any options without dye. Confetti is not allowed. No colored rose petals used on the bridge or polished concrete indoors due to the potential of staining the bridge or polished concrete floors when stepped on. Fiberoptic and lit foam wands are an option. Pop out streamer tubes are an option if the streamers are attached to the tubes and disposed of after use. Please no sparklers due to the fire hazard

-If flower petals are spread in the ceremony area, we ask that these are all picked up before it gets too dark for the sake of the weddings/events following yours.

-We love our neighbors! Please be mindful of the noise level outdoors and follow standard city noise ordinances for the city of Guthrie.

-No self- serving alcohol at any point during your rental period. If age is questionable your bartender may ask to show proof of age before alcohol is served. No shots allowed by bartending services.

## VENUE RESTRICTIONS

---

-Cooking in the facility is not permitted. However, a prep kitchen is available and a highly recommended vendors list will be provided should you need one. You are welcome to bring in your own food.

-No nails, screws, or anything that leaves a sticky residue. We have not had any success with command strips. Our walls are very smooth and modern which makes anything left on the walls very noticeable. No glitter allowed. You may utilize candles as long as they are enclosed and the flame is under the height of the container when lit. Any decorations are allowed that do not cause permanent damage. Only use of biodegradable items that do not contain dyes for sendoff

-We have a sound system for backup or casual playing while the wedding party is getting ready but it is not set up to be used as the source of music for the ceremony or reception. We recommend using a DJ service. However, you are also welcome to bring in your own equipment. Whoever is running the music will want to have the music downloaded prior to the event in case the internet service does not allow the music to be streamed.
